RC10 Heavy Duty Combination Rock and Earth Augers

The RC10 range of Augers are specially designed for Excavators 20 to 50 tonne to drill in earth, shale, asphalt, permafrost, clay and fracturable rock.

Digga manufactures premium performance Earth Augers in England for distribution throughout Europe through our dealer network. All Digga Augers are built from high grade steel and feature ideal flight pitches and advanced cutting head design providing superior drilling performance. Over 30 years of design and development has produced the highest quality range of earth and rock augers on the market today.

Can't get your old teeth out? Digga's ingenious Knock In, Knock Out tooth locking system eliminates the need for cumbersome tools to remove the auger teeth.
