

Grader

The Grader M3 is ideal for the ground, street, and square levelling, and can be attached to any type of skid-steer loader with power ranging from 50 to 100 hp. The Grader functions in a hydraulic way through push-buttons inside the cab. On request laser control system.

The Grader

- Working width: 2300mm (option 2500)
- Hydraulic blade-inclination right/left $\pm 27^\circ$
- Hydraulic blade-rotation right/left $\pm 27^\circ$
- Hydraulic side translation of the blade (option) ± 300 mm

GRADER

- Hydraulic blade inclination
- Fitting to the machine
- Hydraulic piping
- Electronic control set
- CE certification
